Neutron diffraction studies of fluid bilayers with transmembrane proteins: structural consequences of the achondroplasia mutation.

Title	Neutron diffraction studies of fluid bilayers with transmembrane pro
Publication Type	Journal Article
Year of Publication	2006
Authors	Han, X, Mihailescu, M, Hristova, K
Journal	Biophys J
Volume	91
Issue	10
Pagination	3736-47
Date Published	2006 Nov 15
ISSN	0006-3495
Keywords	Achondroplasia, Amino Acid Substitution, Humans, Lipid Bilayers, M
Abstract	Achondroplasia, the most common form of human dwarfism, is due
DOI	10.1529/biophysj.106.092247
Alternate Journal	Biophys. J.
PubMed ID	16950849
PubMed Central ID	PMC1630470
Grant List	GM 068619 / GM / NIGMS NIH HHS / United States RR1481-2 / RR / NCRR NIH HHS / United States
