Development of surface-based assays for transmembrane proteins: selective immobilization of functional CCR5, a G protein-coupled receptor.

Title	Development of surface-based assays for transmembrane proteins:
Publication Type	Journal Article
Year of Publication	2006
Authors	Silin, VI, Karlik, EA, Ridge, KD, Vanderah, DJ
Journal	Anal Biochem
Volume	349
Issue	2
Pagination	247-53
Date Published	2006 Feb 15
ISSN	0003-2697
Keywords	Animals, Cercopithecus aethiops, COS Cells, GTP-Binding Proteins, f
Abstract	A general method to develop surface-based assays for transmembr
DOI	10.1016/j.ab.2005.10.025
Alternate Journal	Anal. Biochem.
PubMed ID	16298323
Grant List	EY 13286 / EY / NEI NIH HHS / United States
